It is Wellstar's policy that all medical information is effectively communicated to our patients in their preferred language to ensure both patient autonomy and the quality and safety of their care. Every new Wellstar team member is educated during their employee orientation on interpretation and Culturally Competent care. Cultural Competency education is also provided in new leadership orientation training. Wellstar created and offers to all staff computer-based learning modules that instruct them on how to determine a patient's preferred language, obtain a qualified medical interpreter, how to work with an interpreter, and how to chart medical interpretation usage according to the CLAS standards. Wellstar is developing a comprehensive tool and other resources for physicians and Wellstar staff and currently provides CBL cultural competence training as a resource.

**Authorized Signature:** Candice Saunders

**Date:** 3/7/2025

**Title:** President and C.E.O.

**Comments:**

Part E4: Trauma Registry codes are used to determine Trauma volumes in the ED. ICD-10 codes are utilized to determine psych ED volumes. Patients ages 0-17 are considered pediatric patients treated in pediatric beds. All other patients are considered treated in general ED beds for survey reporting. Utilization volumes are based on the type of clinical encounter, regardless of where within the ED the encounters take place.

- Part E.8: Hospital unable to track diverted cases.

- Part F.1.b: Hospice counts show hospice patients admitted to the hospital, not volumes connected with Wellstar-owned hospice facilities.

- Perinatal Services Addendum Parts C.1, C.2: Mothers' admissions and corresponding inpatient days do not include antepartum admissions and days.

- Minority Health Addendum: Interpreters are shared across the Wellstar Health System.

- Parts G.3 and G.4: The differences in the total number of physicians between these two categories are attributable to the physicians accounted for in G.4 who do not have admitting privileges; consistent with the survey instructions those non-admitting physicians are not counted in G.3. The reported number of physician providers enrolled in Medicaid/ PeachCare and/or public employee health benefits plan was derived from WMG and business partners who are identified to be enrolled in Medicaid and Blue Cross Blue Shield for PEHB. The hospital expects that there are additional physicians on its medical staff who are enrolled in these programs but not reflected in the survey count.
