### **Comments and Suggestions:**

Part E.4 - Part E.4 - The hospital used Trauma Registry codes to determine Trauma cases. The hospital used ICD-10 codes to determine psych patients used 0-17 for peds patients and all other were general ED beds for survey reporting purposes. The visit data reflects the types of cases that relate to the described bed/room type, regardless of where in the emergency department the patient took place. Part E.8 the hospital is not able to track diverted cases. Part F.1.b hospice counts show hospice patients in a hospital bed and do not show activities of WellStar owned hospice facilities.  
Part G.3 physicians who do not identify a race are listed as multiracial. All sections related to race: patients who do not identify a race are listed as multiracial. Parts G.3 and G.4 colon the differences in the total number of physicians between these two categories are attributable to the physician's accounted for in G.4 who do not have admitting privileges; consistent with the survey instructions those non-admitting physicians are not counted in G.3. Part G.4: the reported number of physician providers enrolled in Medicaid/PeachCare and/or public employee health benefits plan was derived from hospital billing records. The hospital expects that there are additional physicians on its medical staff who are enrolled in these programs but not reflected in the survey count. Perinatal service is addendum Part C.1 and C.2: the mother's admission and inpatient days do not include antepartum admissions and days. Minority Health Addendum: The Interpreters are shared across all Wellstar Health System hospitals.

## Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 17 (FTE's)

What languages do they interpret?

Spanish, Mandarin, American Sign Language, Mandarin

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

CulturalLink, Contracted Interpreter Services, Interpretek, Cloudbreak

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	2.09%	0	0	0
Creole	0.08%	0	0	0
Gujarati	0.06%	0	0	0

4. What training have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

It is Wellstar's policy that all medical information is effectively communicated to our patients in their

preferred language to ensure both patient autonomy and the quality and safety of their care. Every new Wellstar team member is educated during their employee orientation on interpretation and Culturally Competent care. Cultural Competency education is also provided in new leadership orientation training. Wellstar created and offers to all staff computer-based learning modules that instruct them on how to determine a patient's preferred language, obtain a qualified medical interpreter, how to work with an interpreter, and how to chart medical interpretation usage according to the CLAS standards. Wellstar is developing a comprehensive tool and other resources for physicians and Wellstar staff and currently provides CBL cultural competence training as a resource.

**5. What is the most urgent tool or resource you need in order to increase your ability to provide Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

Video Remote Interpretation as an additional interpretation resource for our patients as well as additional educational tools (e.g. webinars, computer tools) that go beyond simply the language needs of our patients and address cultural competency needs of our patients.

**6. In what languages are the signs written that direct patients within your facility?**

- 1. English
- 2. Spanish
- 3. Sign
- 4.

**7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)**

If you checked yes, what is the name and location of that health care center or clinic?

1 - CarePlace--1707 North Blairs Bridge Rd. Austell, Ga 30168
