	Answer
1. **Was your hospital allowed to retain 100% of the DSH payment it received for this DSH year? Matching the federal share with an IGT/CPE is not a basis for answering this question "no". If your hospital was not allowed to retain 100% of its DSH payments, please explain what circumstances were present that prevented the hospital from retaining its payments.**	Yes

Explanation for "No" answers:

The following certification is to be completed by the hospital's CEO or CFO:

I hereby certify that the information in Sections A, B, C, D, E, F, G, H, I, J, K and L of the DSH Survey files are true and accurate to the best of our ability, and supported by the financial and other records of the hospital. All Medicaid eligible patients, including those who have private insurance coverage, have been reported on the DSH survey regardless of whether the hospital received payment on the claim. I understand that this information will be used to determine the Medicaid program's compliance with federal Disproportionate Share Hospital (DSH) eligibility and payments provisions. Detailed support exists for all amounts reported in the survey. These records will be retained for a period of not less than 5 years following the due date of the survey, and will be made available for inspection when requested.

General Instructions and Identification of Cost Reports that Cover the DSH Year:

1. DSH Survey Sections A, B, and C are part of a separate Excel workbook titled DSH Survey Part I and should be submitted along with the completed DSH Survey Part II Excel workbook. DSH Survey sections A, B, and C contain DSH eligibility and certification questions.

2. Select the "Survey - Sec. D, E, F CR Data" tab in the Excel workbook. On Line 1, select your facility from the drop-down menu provided. When your facility is selected, the following Lines will be populated with your facility specific information: Line 2 - applicable cost report years, Line 4 - Hospital Name, Line 5 - in-state Medicaid provider number, Line 6 - Medicaid Subprovider Number 1 (Psychiatric or Rehab), Line 7 - Medicaid Provider Number 2 (Psychiatric or Rehab), and Line 8 -Medicare provider number. The provider must manually select the appropriate option from the drop down menu for Line 3 - Status of Cost Report Used for the Survey. Review the information and indicate whether it is correct or incorrect. If incorrect, provide correct information in the provided space and submit supporting documentation when you submit your survey.

3. You must complete a separate DSH Survey Part II Excel workbook for each cost report year needed to cover the State DSH year and not previously submitted for a DSH examination. To indicate the proper time period for the current survey select an "X" from the drop down menu on the appropriate box of Line 2 of the "Survey - Sec. D, E, F CR Data" tab in this Excel workbook. If two cost report years are selected at the same time the survey will generate an error message as only one cost report year may be selected per Excel workbook.

   NOTE: For the 2025 DSH Survey, if your hospital completed the DSH survey for 2024, the first cost report year should follow the last cost report year reported on the 2024 DSH survey. The last cost report year on the 2025 survey must end on or after the end of the 2025 DSH year. If your hospital did not complete the 2024 survey, you must report data for each cost report year that covers the 2025 DSH year.

4. Supporting documentation for all data elements provided within the DSH survey must be maintained for a minimum of five years.

Exhibit A - Support of Uninsured I/P and O/P Hospital Services:

1. See "Exhibit A - Uninsured Charges" in the DSH Survey Exhibits A-C template file for an example format of the information that needs to be available to support the data reported in Section H of the survey related to uninsured services provided in each cost reporting year needed to completely cover the DSH year. This information must be maintained by the facility in accordance with the documentation retention requirements outlined in the general instructions section. Submit a separate Exhibit A for each cost reporting period included in the survey.

2. Complete Exhibit A based on your individual state Medicaid hospital reimbursement methodology (if your state reimburses based on discharge date then only include claims in Exhibit A that were discharged during the cost reporting period for which you are pulling the data).

3. Exhibit A population should include all uninsured patients whose dates of service (see above) fall within the cost report period.

4. The total inpatient and outpatient *hospital (excluding professional fees, and other non-hospital items)* charges from Exhibit A, column N should tie to Section H, line 128 of the DSH survey.

Exhibit B - Support for Self-Pay I/P and O/P Hospital Payments Received:

1. See "Exhibit B - Self-Pay Pmt" in the DSH Survey Exhibits A-C template file for an example format of the information that needs to be available to support the data reported in Section E of the survey related to ALL patient payments received during each cost reporting year needed to completely cover the DSH year. This information must be maintained by the facility in accordance with the documentation retention requirements outlined in the general instructions section. Submit a separate Exhibit B for each cost reporting period included in the survey.

   Note: Include Section 1011 payments received related to undocumented aliens if they are applied at a patient level.

2. Exhibit B population should include all payments received from patients during the cost report year regardless of dates of service and insurance status.

3. Only the payments received from uninsured patients should be included on Section H of the DSH survey, line 143. Payments from both the uninsured and insured patients should be reported on Section E of the DSH survey, lines 9 and 10, respectively. The total payments from Section H, line 143 should reconcile to Section E, line 9.

Section D - General Cost Report Year Information

1. For Lines 1 through 8 of Section D, please refer to the instructions listed above in the "General Information and Identification of Cost Reports that Cover the DSH Year" section.

2. For Lines 9 through 15, provide the name and Medicaid provider number for each state (other than your home state) where you had a current Medicaid provider agreement during the term of the DSH year. Per federal regulation, the DSH examination must review both in-state Medicaid services as well as out-of-state Medicaid services when determining the Medicaid shortfall or longfall.

Section E - Disclosure of Medicaid / Uninsured Payments Received

1. Please read "Note 1" located at the bottom of Section E before entering information for Lines 1 through 7. After reading through Note 1, please provide the applicable Section 1011 payment information as indicated.

2. Please read "Note 2" located at the bottom of Section E before entering information for Line 8. After reading through Note 2, please provide the total Out-of-State DSH payments as indicated.

3. Lines 9 and 10 should reconcile to the Exhibit B information provided by the facility.

4. Line 13 is a drop-down menu. Please answer 'Yes' or 'No' to the question.

5. Lines 14 and 15 should be completed if you answered 'Yes' to line 13. Please provide the amount of lump sum (non-claims-based) payments received from Medicaid Managed Care plans. Please also provide supporting documentation for the amounts reported in the form of cancelled checks, general ledger records, or some other financial records.

Section F - MIUR / LIUR Qualifying Data from the Cost Report

Section F-1 Total Hospital Days Used in Medicaid Inpatient Utilization Ration (MIUR)

1. Section F-1 is required to calculate the Medicaid Inpatient Utilization Rate (MIUR). The MIUR is a federal DSH eligibility criteria that must be met in order to receive DSH payments.

Section F-2 Cash Subsidies for Patient Services Received from State or Local Governments and Charity Care Charges

2. For Lines 2 through 6 report all state or local government cash subsidies received for patient care services. If the subsidies are directed specifically for inpatient or outpatient services, record the subsidies in the appropriate cell. If the subsidies do not specify inpatient or outpatient services, record the subsidies in the unspecified cell. If any subsidies are directed toward non-hospital services, record the subsidies in the non-hospital cell.

3. The unspecified subsidies will be allocated between inpatient and outpatient using your hospital volume statistics. State and local subsidies do not include regular Medicaid payments, supplemental (UPL) Medicaid payments or Medicaid/Medicare DSH payments. Subsidies are funds the hospital received from state or local government sources to assist hospitals to provide care to uninsured or underinsured patients.

4. Cash subsidies are used to calculate Medicaid DSH eligibility under the federal low-income utilization rate formula. They are NOT used to reduce your net uninsured cost for DSH payment programs.

5. For Lines 7 through 10 report the applicable charity care charges. Charity care charges are used in the calculation of the low-income utilization rate. Report the hospital's inpatient and outpatient charity care charges for the applicable cost reporting period. Any charity care charges related to non-hospital services should be reported on the non-hospital charity care charges line. Total charity care charges must reconcile to the charity care charges reported in your financial statements and/or annual audit or they must be in compliance with the definition of charity per your state's DSH payment program.

Section F-3 Calculation of Net Hospital Revenue from Patient Services (Used for LIUR)

6. For purposes of the low-income utilization rate (LIUR) calculation, it is necessary to calculate net hospital revenue from patient services. This section of the survey requests a breakdown of charges reported on cost report Worksheet G-2 between hospital and non-hospital services. The form directs you to allocate your total contractual adjustments, as reported on cost report Worksheet G-3, Line 2, between hospital and non-hospital services. The form provides space for an allocation of contractual allowances among service types. If contractual adjustment amounts are not maintained by service type in your accounting system, a reasonable allocation method must be used. This will allow for the calculation of net "hospital" revenue. Total charges and contractual adjustments must agree to your cost report. Contractuals may have been spread on the survey using formulas but you can overwrite those amounts with actual contractuals if you have the data.

7. A separate Excel workbook must be used for each cost reporting period needed to completely cover the DSH year as indicated in the "General Information and Identification of Cost Reports that Cover the DSH Year" section of the instructions.

Section G - CR Data

NOTE: All data in this section must be verified by the hospital. If data is already present in this section, it was completed using CMS HCRIS cost report data. If the hospital has a more recent version of the cost report, the data should be updated to the hospital's version of the cost report. Formulas can be overwritten as needed with actual data.

1. The provider should enter all applicable Routine and Ancillary Cost Centers not currently provided in Section G. Once the Routine and Ancillary Cost Centers have been entered into Section G of the DSH survey, they will populate the Routine and Ancillary Cost Centers on DSH survey "Sec. H - In-State", "Sec. I - Out-of-State.

2. If your teaching hospital removed intern and resident costs in Column 25 of Worksheet B, Part I, you will need to enter those amounts in the column provided so the amounts can be added back to your total cost per diems and CCRs for Medicaid/Uninsured. If intern and resident cost was not removed in Column 25 of Worksheet B, Part I then no entry is needed. Teaching costs should be included in the final cost per diems and CCRs.

3. After the Routine and Ancillary Cost Centers have been identified, it will be necessary for the provider to fill in the remaining information required by Section G. The location of the specific cost report information required by Schedule G for both Routine and Ancillary Cost Centers is identified in each column heading. The provider will NOT need to enter data into the "Net Cost", or "Medicaid Per Diem/Cost-to-Charge Ratios" columns as these are calculated columns.

4. Once the "Medicaid Per Diem/Cost-to-Charge Ratios" column has been calculated, the values will also populate on DSH Survey "Sec. H - In-State", and "Sec. I - Out-of-State".

Section H - Calculation of In-State Medicaid and Uninsured I/P and O/P Costs:

1. This section of the survey is used to collect information to calculate the hospital's Medicaid shortfall or longfall. By federal Medicaid DSH regulations, the shortfall/longfall must be calculated using Medicare cost report costing methodologies.

2. The routine per diem cost per day for each hospital routine cost center present on the Medicaid cost report will automatically populate in Section H after DSH Survey "Sec. G - CR Data" has been completed. These amounts are calculated on Worksheet D-1 of the cost report. The ancillary cost-to-charge ratio for each ancillary cost center on your cost report will also automatically be populated in Section H after DSH Survey "Sec. G - CR Data" has been completed.

3. Record your routine days of care, routine charges and I/P and O/P ancillary charges in the next several columns. This information, when combined with cost information from the cost report, will calculate the total cost of hospital services provided to Medicaid and uninsured individuals.

In-State Medicaid FFS Primary

Traditional Medicaid Primary (should exclude non-Title 19 programs such as CHIP/SCHIP)
In these two columns, record your in-state Medicaid fee-for-service primary days and charges. The days and charges should reconcile to your Medicaid provider statistics and reimbursement (PS&R) report, or your state version generated from the MMIS. Record in the box labeled "Total Medicaid Paid Amount (excludes TPL, Co-Pay and Spend-Down)," the total (gross) payments your hospital received for these services. Reconcile your responses on the survey with the PS&R total at the bottom of each column. Provide an explanation for any unreconciled amounts.

Medicaid fee-for-service charges, days, and payments should be limited to claims where Medicaid is the primary payer for such services. The determination of an individual's status as having a source of third party coverage can occur only once per individual per service provided and applies to the entire claim's services. Under existing third-party liability rules, there are limited exceptions to the general rule that Medicaid is the payor of last resort. Where these limited exceptions exist, payments should be included and treated as cost offsets. Examples of these limited exceptions may include payments from federally administered health programs, such as Ryan White Fund payments or unique circumstance where in addition to Medicaid, a hospital inpatient has Medicare Part B only (that is, the patient is not entitled to Part A benefits) or other third-party coverage that only covers ancillary services.

In-State Medicaid Managed Care Primary

Managed Care Medicaid Primary (should exclude non-Title 19 programs such as CHIP/SCHIP)
Same requirements as above, except payments received from the Medicaid Managed Care entity should be reported on the line titled "Total Medicaid Managed Care Paid Amount (excludes TPL, Co-Pay and Spend-Down)". If your hospital does business with more than one in-state Medicaid managed care entity, your combined results should be reported in these two columns (inpatient and outpatient). NOTE: Medicaid Managed Care payments should include all Medicaid Managed Care payments related to the services provided, including, but not limited to, incentive payments, bonus payments, capitation and sub-capitation payments.

Similar to Medicaid-fee-for-service, charges, days, and payments should be limited to claims where Medicaid is the primary payer for the services.

In-State Medicare FFS Cross-Overs (with Medicaid Secondary)

Traditional Medicare Primary with Traditional Medicaid or Managed Care Medicaid Secondary
Each hospital must report its Medicare/Medicaid cross-over claims summary data on the survey. Total cross-over days and routine and ancillary charges must be reported and grouped in the same cost centers as reported on the hospital's cost report. Report payments as instructed on each line. In total, payments must include all amounts collected from the Medicare program, patient co-pays and deductible payments, Medicare bad debt payments, and any Medicaid payments and other third party payments.

In-State Other Medicaid Eligibles (Not Included Elsewhere & with Medicaid Secondary - Exclude Medicaid Exhausted and Non-Covered)

In-State Other Medicaid Eligibles (Not Included Elsewhere & with Medicaid Secondary) (should exclude non-Title 19 programs such as CHIP/SCHIP)

Each hospital must report its Medicare/Medicaid managed care cross-over claims summary data on the survey. Total cross-over days and routine and ancillary charges must be reported and grouped in the same cost centers as reported on the hospital's cost report. Report payments as instructed on each line. In total, payments must include all amounts collected from the Medicare program, patient co-pays and deductible payments, Medicare bad debt payments, and any Medicaid managed care payments and other third party payments.

Medicaid FFS & MCO Exhausted and Non-Covered (Not to be Included Elsewhere)

Medicaid FFS & MCO Exhausted and Non-Covered (should exclude non-Title 19 programs such as CHIP/SCHIP)

Enter claim charges, days, and payments for Medicaid-eligible patients where payment was denied, due to exhausted benefits prior to obtaining service or patient belonging to limited Medicaid benefit plan that does not cover an otherwise Medicaid-covered service, for the specific hospital service provided. This population includes both in-state and out-of-state claims. Medicaid-eligibility must be supported by Exhibit C and include the patient's Medicaid ID number.

Uninsured

Federal requirements mandate the uninsured services must be costed using Medicare cost reporting methodologies. As such, a hospital will need to report the uninsured days of care they provided each cost reporting period, by routine cost center, as well as inpatient and outpatient ancillary service revenue by cost report cost center. Exhibit A (see "Exhibit A - Uninsured Charges" in the DSH Survey Exhibits A-C template file) has been prepared to assist hospitals in developing the data needed to support responses on the survey. This data must be maintained in a reviewable format. It must also only include charges for inpatient and outpatient hospital services, excluding physician charges and other non-hospital charges. Per federal guidelines uninsured patients are individuals with no source of third party healthcare coverage (insurance) or third party liability for the specific service provided. See "Uninsured Definitions" tab for additional details.

4. Federal requirements mandate the hospital cost of providing services to the uninsured during the DSH year must be reduced by uninsured self-pay payments received during the DSH year. Exhibit B (see "Exhibit B - Self-Pay Pmt" in the DSH Survey Exhibits A-C template file) will assist hospitals in developing the data necessary to support uninsured payments received during each cost reporting period. The data must be maintained in a reviewable format and made available upon request.

Section I - Calculation of Out-of-State Medicaid Costs:

1. This schedule is formatted similar to Schedule H. It should be prepared to capture all out-of-state Medicaid FFS, managed care, FFS cross-over and managed care cross-over services the hospital provided during the cost reporting year. Like Schedule H, a separate schedule is required for each cost reporting period needed to completely cover the DSH year. Amounts reported on this schedule should reconcile to the out-of-state PS&R (or equivalent schedule) produced by the Medicaid program or managed care entity. See corresponding Schedule H for each payor specific instructions.

Out-of-State Medicaid FFS Primary

Traditional Medicaid Primary (should exclude non-Title 19 programs such as CHIP/SCHIP)

Out-of-State Medicaid Managed Care Primary

Managed Care Medicaid Primary (should exclude non-Title 19 programs such as CHIP/SCHIP)

Out-of-State Medicare FFS Cross-Overs (with Medicaid Secondary)

Traditional Medicare Primary with Traditional Medicaid or Managed Care Medicaid Secondary

Out-of-State Other Medicaid Eligibles (Not Included Elsewhere & with Medicaid Secondary)

Out-of-State Other Medicaid Eligibles (Not Included Elsewhere & with Medicaid Secondary) (should exclude non-Title 19 programs such as CHIP/SCHIP)

Section J - Calculation of In-State Medicaid and Uninsured Organ Acquisition Costs:

1. **This section is to be completed by hospitals that have incurred in-state Medicaid or uninsured organ acquisition costs only. Information is collected in a format similar to Section H.**

2. Total Medicaid and uninsured organ acquisition cost is calculated based on the ratio of Medicaid and uninsured useable organs to total organs.

Section K - Calculation of Out-of-State Medicaid Organ Acquisition Costs:

1. **This section is to be completed by hospitals that have incurred out-of-state Medicaid organ acquisition costs only. Information is collected in a format similar to Section I.**
2. Total Medicaid and uninsured organ acquisition cost is calculated based on the ratio of Medicaid and uninsured useable organs to total organs.
3. The following columns will **NOT** need to be entered by the provider as they will automatically populate after Section J has been completed: "Total Organ Acquisition Cost", "Revenue for Medicaid/Uninsured Organs Sold", and "Total Useable Organs (Count)".

Section L. Provider Tax Assessment Reconciliation / Adjustment:

1. **This section is to be completed by all hospitals in states that assess a provider tax on hospitals. Complete all lines as instructed below.**

   The objective of this form is to determine the state-assessed total hospital provider tax not included in your cost-to-charge ratios and per diem cost on the cost report.
2. Line 1 should be the total hospital Provider Tax Assessment from the general ledger, whether it is included as an expense, a revenue offset, etc..

   It should exclude non-hospital assessments such as a nursing facility tax unless an adjustment is made on W/S A-8 to remove the non-hospital expense.
3. Line 2 should be the total amount of the Provider Tax Assessment from line 1 that is included in Expense on Worksheet A, Column 2 of the cost report. Please report the cost report line number in which the expense is included in the box provided.
4. If there is a difference in the values you are reporting in lines 1 and 2, please explain that difference in the box provided (or attach separate explanation if it won't fit).
5. Lines 4-7 should identify any amount of the Provider Tax expense that was reclassified on Worksheet A-6 of the cost report. Please report the reasons for the reclassifications and the cost report line numbers affected in the boxes provided.
6. Lines 8-11 should identify any amount of the hospital allowable Provider Tax expense (assessed by the state) that was adjusted on Worksheet A-8 of the cost report.

   Please report the reasons for the adjustments and the affected cost report line numbers in the boxes provided.
7. Lines 12-15 should identify Provider Tax expense adjustments on Worksheet A-8 of the cost report that are not related to the actual tax assessed by the state (e.g., association fees, other funding arrangments outside of the state's assessed tax).

   Please report the reasons for the adjustments and the affected cost report line numbers in the boxes provided.
8. Line 16 calculates the net Provider tax expense included in the cost report after all reclassifications and adjustments.
9. Line 17 calculates the total Provider Tax expense that has been excluded from the cost report - this amount is used to determine the amount that will be added back to your hospital's DSH UCC.
10. The amount on Line 25 or 33 may NOT be the final amount added into your DSH UCC. The examination will review the various adjustments and reconciliations and make a final determination.

- Exclude charges for services to patients where coverage has been denied by the patient's public or private payer on the basis of lack of medical necessity, regardless as to whether they met Medicaid's medical necessity and coverage criteria (still insured). *(73 FR dated 12/19/08, page 77916)*
- Exclude charges related to accounts with unpaid Medicaid or Medicare deductible or co-payment amounts (patient has coverage). *(42 CFR 447.299 (15))*
- Exclude charges associated with the provision of durable medical equipment (DME) or prescribed drugs that are for "at home use", because the goods or services upon which these charges are based are not hospital services. *(42 CFR 447.299 (14) / 73 FR dated 12/19/08, page 77913)*

- Exclude charges associated with services not billed under the hospital's provider numbers, as identified on the facility cost report, Worksheet S-2, Lines 2 and 3. These include non-hospital services offered by provider owned or provider based nursing facilities (SNF) and home health agencies (HHA). *(42 CFR 447.299 (14) / 73 FR dated 12/19/08, page 77913)*
- Exclude facility fees generated in provider based rural health clinic outpatient facilities (not a hospital service in state plan). *(42 CFR 447.299 (14) / 73 FR dated 12/19/08, pages 77913 & 77926)*

- Exclude State, county or other municipal subsidy payments made to hospitals for indigent care. *(42 CFR 447.299 (12))*
- Exclude any individual payments or third party payments on deductibles and co-insurance on Commercial and Medicare accounts (cost not included so neither is payment). *(42 CFR 447.299 (15))*
- Exclude collections for non-hospital services: Skilled Nursing Facility, Nursing Facility, Rural Health Clinic, Federally Qualified Health Clinic, and non-hospital clinics (i.e. clinics not reported on Worksheet "C" Part I) (not hospital services). *(42 CFR 447.299 (14) / 73 FR dated 12/19/08, page 77913)*

December 3, 2014 Final Rule Highlights:

- **Medicaid Eligible Individuals:**

  • If an individual is Medicaid eligible for any day during a single inpatient stay for a particular service, states must classify the individual as Medicaid eligible.

  • If an individual is not Medicaid eligible and has a source of third party coverage for all or a portion of the single inpatient stay for a particular service, states cannot include any costs and revenues associated with that particular service when calculating the hospital-specific DSH limit.

  • If an individual has no source of third-party coverage for the specific inpatient hospital or outpatient hospital service, states should classify the individual as uninsured and include all costs and revenues associated with the particular service when calculating the hospital-specific DSH limit.

- **Uninsured and Underinsured:**

  • Individuals who have exhausted benefits before obtaining services will be considered uninsured.

  • Individuals who exhaust covered benefits during the course of a service will not be considered uninsured for the particular service. If the individual is not Medicaid eligible and has a source of third party coverage for all or a portion of the single inpatient stay for a particular service, the costs and revenues of the service cannot be included in the hospital-specific DSH limit.

  • Individuals with high deductible or catastrophic plans are considered insured for the service even in instances when the policy requires the individual to satisfy a deductible and/or share in the overall cost of the hospital service. The cost and revenues associated with these claims cannot be included in the hospital-specific DSH limit.

- **Scope of Inpatient and Outpatient Hospital Services:**

  • To be considered as an inpatient or outpatient hospital service for purposes of Medicaid DSH, the service must meet the federal and state definitions of inpatient or outpatient hospital services and must be included in the state's definition of an inpatient or outpatient hospital service under the approved state plan.

  • FQHC services are not inpatient or outpatient hospital services and cannot be included in the hospital-specific DSH limit.

  • Example: If transplant services are not covered under the approved state plan, costs associated with transplants cannot be included in calculating the hospital-specific DSH limit.

  • Example: NF, HHA, employed physicians or other licensed practitioners are not recognized as inpatient or outpatient hospital services and are not covered under the inpatient or outpatient hospital Medicaid benefit service categories and cannot be included in the hospital-specific DSH limit.

  • Administratively necessary days (days awaiting placement) are recognized as inpatient hospital services and should be included in the hospital-specific DSH limit.

- **Timing of Service Specific Determination:**

  • The determination of an individual's status as having a source of third party coverage can occur only once per individual per service provided and applies to the entire claim's services.

  • When benefits have been exhausted for individuals with a source of third party coverage, only costs associated with separate services provided after the exhaustion of covered benefits are permitted for inclusion in the calculation of the hospital-specific limit. These services must be a separate service based on the definition of a service for Medicaid (e.g., separate inpatient stay or separate outpatient billing period).

• Uncompensated care costs incurred by hospitals due to unpaid co-pays, co-insurance, or deductibles associated with a non-Medicaid eligible individual cannot be included in the calculation of the hospital-specific DSH limit.

- **Physician Services:**

  • Services that are not inpatient or outpatient hospital services, including physician services, must be excluded when calculating the hospital-specific DSH limit.

  • Exception: Costs where insurance pays an all inclusive rate are allowable.

  • Physician costs under Section 1115 waivers are still excluded from the DSH limit calculation.

- **Prisoners:**

  • Individuals who are inmates in a public institution or are otherwise involuntarily in secure custody as a result of criminal charges are considered to have a source of third party coverage.

- **Indian Health Services:**

  • For Medicaid DSH purposes, American Indians/Alaska Natives are considered to have third party coverage for inpatient and outpatient hospital services received directly from IHS or tribal health programs (direct health care services) and for services specifically authorized under CHS.

  • Determining factor in deciding whether an American Indian or Alaska Native has health insurance for I/P or O/P hospital service is if the providing entity is an IHS facility or tribal health program.

  • Contract Services (Non-IHS provider): if the service is specifically authorized via a purchase order or equivalent document, it is considered to be insured. If it does not have an authorization, it is considered an uninsured service.

L. Provider Tax Assessment Reconciliation / Adjustment

An adjustment is necessary to properly reflect the Medicaid and uninsured share of the provider tax assessment for some hospitals. The Medicaid and uninsured share of the provider tax assessment collected is an allowable cost in determining hospital-specific DSH limits and, therefore, can be included in the DSH examination survey. However, depending on how your hospital reports it on the Medicare cost report, an adjustment may be necessary to ensure the cost is properly reflected in determining your hospital-specific DSH limit. For instance, if your hospital removed part or all of the provider tax assessment on the Medicare cost report, the full amount of the provider tax assessment would not have been apportioned to the various payers through the step down allocation process, resulting in the Medicaid and uninsured share being understated in determining the hospital-specific DSH limit. If your hospital needs to make an adjustment for the Medicaid and uninsured share of the provider tax assessment, please fill out the reconciliation below, and submit the supporting general ledger entries and other supporting documentation to Myers and Stauffer, LC along with your hospital's DSH examination surveys.

****For state plan rate years (SPRY) beginning on or after October 1, 2021, Medicaid UCC includes only Medicaid primary cost and payments, unless a provider qualifies for 97th percentile exception and it benefits them. The exception is based on SPRY. For cost report periods overlapping SPRYs beginning on or after effective date, the Medicaid primary tax assessment adjustment to DSH UCC (line 33, above) will be utilized unless the provider qualifies for the 97th percentile exception and the SPRY UCC is greater utilizing total Medicaid eligible population. In which case, the provider tax assessment adjustment to DSH UCC including all Medicaid eligibles (line 25, above) will be utilized.*
