Part E.8 The hospital is not able to track diverted cases. Part G.3 - Physicians who do not identify race are listed as multi-racial. We appreciate your willingness to provide information on the following questions:

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

It is WellStar's policy that all medical information is effectively communicated to our patients in their

preferred language to ensure both patient autonomy and the quality and safety of their care. Every new WellStar team member is educated during their employee orientation on interpretation and Culturally Competent care. Cultural Competency education is also provided in new leadership orientation training. WellStar created and offers to all staff computer-based learning modules that instruct them on how to determine a patient's preferred language, obtain a qualified medical interpreter, how to work with an interpreter, and how to chart medical interpretation usage according to the CLAS standards. WellStar is developing a comprehensive tool and other resources for physicians and WellStar staff and currently provides CBL cultural competence training as a resource.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Video Remote Interpretation as an additional interpretation resource for our patients as well as additional educational tools (e.g. webinars, computer tools) that go beyond simply the language needs of our patients and address cultural competency needs of our patients.
