

## 2019 Community Workshops

At these workshops, you will learn the importance of reflecting on, thinking about, and documenting your wishes for medical care if you are not able to speak for yourself. Each participant will receive an information folder that includes educational sheets and a copy of the legal document for the state of Georgia. Discussion will be focused around choosing a Healthcare Agent, having a conversation about your wishes with your family, and how to document your wishes in the legal document.
